

# Testimonials

*"The facility to offer early Physiotherapy treatment has totally revolutionised the process of early recovery. The clients I see at North East Clinic have already had or are currently having treatment which reassures them they will get better and recover from their injuries. The Team are friendly and make both me and the clients relaxed and comfortable and a feeling they are being given the best possible service ever"*

Dr Gerry Sweeney Associate Specialist in A&E.

*"The treatment I received was first class and all the staff made me feel really welcome. The assistance I got helped me back in the driving seat and I just can't thank them enough."*

Steve Kidd, Driving Instructor.

# Easy Access

## By Road:

From the A1058 Coast Road heading towards Newcastle Upon Tyne turn left at the traffic lights at the Corner House heading towards Heaton/Byker. Following this Road until you reach a small round about. Continue straight ahead at the roundabout. Head straight on at the first set of traffic lights. Continue along and at the second set of traffic lights we are situated on the left hand corner past the traffic lights.

From the Tyne Bridge. Once over the Tyne Bridge take the second exit off the A167(M) onto the A193. Follow this Road over the traffic lights until you reach a roundabout. Take the first left off the roundabout and head towards Morrisons supermarket. At the mini roundabout turn right onto Shields Road. Continue along Shields Road and take the left onto Heaton Road at the traffic lights just past the Raby Pub, the clinic is straight ahead about 200 metres down Heaton Road on the right hand side.

Parking: Is situated at both front and rear of the building.

## On Foot:

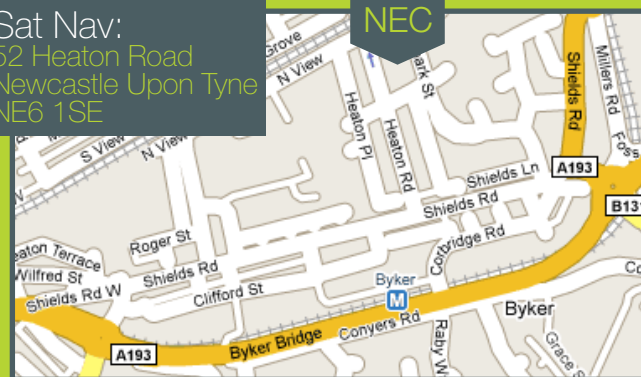

The clinic is just off Shields Road, the main shopping area in Byker. Heading down Shields Road towards Newcastle turn right at Lloyds TSB. The office is approximately 100 meters from this junction on the right hand side heading down Heaton Road.

## By Public Transport:

North East Clinic is easily accessible via public transport. You can reach us by either bus or metro. We are located 5 minute's walk from Byker metro station. Please look at the following websites for further travel advice.  
[www.transportdirect.org.uk](http://www.transportdirect.org.uk) [www.tyneandwearmetro.co.uk](http://www.tyneandwearmetro.co.uk)

## Sat Nav:

52 Heaton Road  
Newcastle Upon Tyne  
NE6 1SE

If the North East Clinic is not an accessible location for you we have a nationwide network of physiotherapy centres who are able to assist.

## Avoid Long Term Symptoms from your injuries

Treating injuries quickly with physiotherapy can often reduce the risk of long term symptoms. A specific individual tailored rehabilitation programme would be planned for you to ensure you avoid any long term symptoms from your injuries. We have been complimented by many of the orthopaedic surgeons with whom we work for our early intervention and effective treatment in reducing the risk of long term permanent disability.

## Rapid Friendly Medical Examination

We only employ those with significant experience of providing medico legal reports and the quality of their reports are continually assessed.

Medics are provided with time and facilities to undertake the medical examinations properly and to be able to draft a medical report immediately is much more likely to be accurate and improve the speed at which your case is settled. This avoids many of the problems which occur at other clinics.

The appointment itself will consist of a brief examination and discussion about your injury and your current condition. Each examination occurs in a private room in a comfortable and relaxed environment.

## Rapid Pain Relief from your Injuries

Our physiotherapists are experts in treating a wide range of conditions. There is a particularly high level of expertise in road traffic accident type injuries. All physiotherapists employed by the company are registered and members of the Chartered Society of Physiotherapy. You will receive a comprehensive assessment before any treatment is given. In most cases treatment can start immediately. Physiotherapy and, where appropriate, acupuncture assist us to restore you to your pre-accident condition and lifestyle.

## Rapid Accurate Drafting and Supply of Medical Reports to your Solicitor

As medics are requested to dictate the medical reports immediately after the examination they can be typed up quickly by the support team. The support team are well resourced and most reports can be typed the same day they are received and emailed back to the solicitors as soon as they have been checked and signed by the medic. As they are dictated, checked and dispatched very quickly there is less scope for mistakes to be made and there is a high level of agreement with the reports content.

## Automatic Appointment Reminder

We accept that we all lead busy lives and it is easy to forget an appointment. For that reason we have an advanced IT system which provides an automatic reminder to you of your appointment so that you do not miss it by accident.
